GENERAL OVERVIEW

Marshal Guard is an Indian security company providing comprehensive and tailored protective services, logistics, procurement and training for the defense, energy, and financial sectors, as well as high net-worth clients, diplomatic missions and international organizations operating in high-risk, volatile, hostile, and complex environments.

We currently have operations and are deployed in challenging environments. Our field experience bought since 2017, has positioned our company within the security industry landscape as a professional and dependable provider.

OUR ADDED VALUE

Our added value in the international security industry landscape is based on our approach: MARSHAL GUARD's goal is to propose mitigation services and strategies to avoid all together, manage, control and/or minimize the risks that may affect its client's operation.

Our international staff come from reputable European army and Police units and receive MARSHAL GUARD specific standard training tailored to our clients in line with the best security industry practice.

Our integrated approach enables us to be able to provide, cover and support upon request all MARSHAL GUARD acts and phases of our clients' operations:

- Pre-deployment Support and Advice Security Risk Assessment
- Risk Mitigation Measures
- Cost Effective Security Strategies
- Minimum Operating Security Standards
- Contingency Planning
- Standard Operating Measures
- Business Continuity Planning
- Guard Services, Access control, Mobile Patrols
- Close Protection Services
- Self Sufficient Evacuation and/or Relocation Plans
- Accommodation, Office identification and Assessment
- Guest Houses Services
- Ground Transport
- Travelers Advice Briefing and Trainings (Hostile Environment Security Training for Corporate Staff)
- Ops Rooms 24/7 Support and Watch keepers
- Local Administrative Support

We also focus our efforts in constant improvement of quality standards and in reinvestment in business development, namely in training. Our edge in the field is our local manpower, especially selected and properly trained to our standards allowing us to implement security setups integrating our experience, the local regulations and sensibilities to best satisfy the client's needs.

We strive to reach the highest standards of honest and ethical behavior by promoting integrity and good governance. We also endeavor to develop our integration in the countries where we operate by understanding and following local customs and unwritten laws but also by promoting professionalism by sharing experience and developing educational programs.

OUR WORKING LINE

The fact that we do have operations, offices and operational rooms in several countries already up and running, allows us to provide to our clients, thanks to our footprint on the ground:

- A ability of projection and support in case of crisis
- A top-quality service at a competitive price

Argus Security Project's success lies in the choice of its staff, partners, equipment and the development of long-term relationships with its clients in order to provide quality security services tailored to their needs and budget.

Our operations in the field are self-sustained allowing us to reduce HQ management, shorten the line of communication with the clients and deliver responsive global security services and support.

OUR SERVICES

Our competitiveness stems from our extensive field experience, ability of reaction and adaptation, streamlined management and communication structure, human resources pool, international and local staff, as well as local competence, partnerships and training. Argus Security Project proposes a full range of security solutions.

ASSESSMENT / SUPPORT

The cornerstone of any strategic decision particularly in terms of safety/ security is intelligence. Our services rely on local knowledge and extensive field experience, which has led to the development of MARSHAL GUARD's local networks. These networks help Marshal Guard to find possible threats and to evaluate the risk based on a typical threat/ risk matrix, to mitigate the client's exposure.

INTEGRATED SECURITY SERVICES AND LOGISTICS

Our company is a security provider for the European Union securing premises and persons in volatile regions. We are also providing services for the oil and gas industry, Diplomatic and International Organizations as well as high net-worth clients. In this specific context we developed services which include Quarterly reports, Security assessments, Pre-deployment trainings for corporate staff and managers, Surveillance systems, Security guards, Mobile patrol, Ops rooms 24/7, Quick Reaction Teams (QRT) 24/7, Close protection teams.

Secure transport of people and equipment in hostile/ complex environments is one of our main activities. Providing journey management planning, accommodation and equipment in conflict and post-conflict countries can be a challenge,

Our teams have experience and resources to successfully provide logistical support for our clients' mission (short term or long stay) and assist identifying best suitable locations for offices, accommodations, ground transport, Airport meet and greet and transportation, Guest house services and administrative support.

Our strength relies on our ability to provide tailored integrated security services to our clients.

CRISIS MANAGEMENT

Our various operations in unstable regions have enabled us to gain experience and ability in the field of crisis management: Quick Reaction Teams, Ops room 24/7 and Watchkeepers, Business continuity planning, Emergency relocation and Evacuation, Contingency planning.

TRAINING

In an increasingly competitive and unstable world, security training and awareness are essential for companies to support control of their environment and their information. Our trainings are intended for companies and individuals, and adaptable to their specific needs including Security/ Safety Awareness, Contingency planning, Business intelligence, Crisis communication, Data protection, Standard operating procedures, First aid, Advanced trauma training and Hostile environment security training.

EMBEDDED SECURITY MANAGERS

MARSHAL GUARD security managers are recruited based on their experience in the field and follow in-house training and selection to guarantee best standards and service to the client. Our security managers are trained to adapt and develop the security culture of the client according to the client specific standards (if any) or will help the client to develop their own standards, procedures and assist in the implementation in line with the duty of care, and balancing costs and risks.

Through outsourcing security management the administrative issues are solved, the position can be covered without interruption relying on MARSHAL GUARD to provide replacement or back to back security managers. From deploying the security manager within your company (upgrading your company's protection based on industry best standards, identifying cost-saving opportunities) to deploying field security managers on dedicated projects (preparing regular risk assessment, managing site-specific emergency responses, ensuring all relevant SOPs are updated, conducting regular trainings) we can develop very cost-effective model that will assist your operations and guarantee due diligence.

MONITORING PERSONNEL AND ASSETS 24/7

Our Monitoring Emergency Response Centers are staffed 24 hours a day, 365 days a year, with highly trained security professionals who follow streamlined standard operating procedures to ensure efficient and effective service delivery.

Apart from the standard Fire, Intruder and event monitoring with emergency services, our sites are fully equipped for the remote monitoring of clients CCTV and Video surveillance systems (analog/hybrid/IP) and rebuild/upgrade such systems if needed. We also have all necessary equipment and experience provide various Location Based Services (Lone Worker, Vehicle/Asset tracking, Geo-fencing and monitoring etc.) with Proactive and/or Reactive responses on trigger events, depending on the protocol agreed with the client.

MARSHAL GUARD

In today's world employee protection and security is crucial. During emergency situations, the ability to provide precise location of your personnel, especially in situations when every second counts, can be a lifesaver.

MARSHAL GUARD tracking system consists of:

- GPS Trackers (personal / vehicle / asset)
- GPS Tracking Server Web interface, multilingual, accessible from any computer connected to the Internet
- GPS Tracking Application for mobile phones (both iPhone and Android), easy install from the store/Play Market
- GPS Tracker software that turns any mobile phone into tracker device (both iPhone and Android), with easy install from the store/Play Market

MARSHAL GUARD GPS tracking system is implemented to be robust yet flexible application able to provide exact location of your personnel and assets, and immediately distribute alerts in case of emergency. All objects are tracked in real time, with historical tracks and notifications (email, SMS and mobile phone „push“ notifications) about events that require your immediate attention. System supports unlimited number of users, each having unique access rights, if needed, so it can be adopted into any real-life scenario in the field.

Our GPS trackers are highest quality devices, made in the European Union, with models that can run simultaneously in two different GSM networks (dual SIM), with external GSM and GPS antennas for ultimate reliability and use with armored cars. As a backup system, and for remote areas, we own and can provide clients with global coverage satellite trackers with built-in SOS buttons. In addition to that, MARSHAL GUARD GPS tracking system supports more than 700 different models of GPS tracker devices, allowing seamless integration of clients existing GPS tracking equipment.

MARSHAL GUARD

GENERAL OVERVIEW

MARSHAL GUARD is an indian equipment supply company that provides security equipment, coordination and training for our clients. We collaborate with clients from the defense, energy and financial sectors, as well as diplomatic missions and international organizations operating in high-risk, complex and volatile environments.

As a subsidiary of Argus Security Projects Holdings Ltd, our company was born out of support for our group's operations. We have been working in challenging environments in the Middle East, North Africa and the Caribbean since 1997.

OUR COMPETITIVE ADVANTAGE

Acting as the single point of contact, we have the capability to conglomerate distinct types of equipment in the strategically found Freeport. We then group the equipment by sea or airfreight before shipping out to their destination.

Our tried, tested and trusted network of manufacturers allows us to offer a wide variety of solutions to match budgets and lead times. An equally strong logistics network ensures the safe delivery of your equipment in the most challenging environments.

SERVICES

EQUIPMENT

We offer a wide range of equipment to support all types of operations. With a varied network of suppliers, we can find the equilibrium of price, quality and delivery time to match our clients' needs.

FOOTWEAR

LOGISTICS

With access to a well-established logistics network, we can provide various options for delivery of your order. We can choose the most dependable, trusted and time-efficient logistics provider to match your requirements.

We offer air charter and sea freight shipments. In addition, we cater to all types of cargo including hazardous or dangerous goods. Logistics Services include **airfreight, ocean freight, express courier, trailer service and air chartering.**

TRAINING

In addition to the products we offer, we can match it with professional training. A technical education is essential for the correct operation and maintenance of equipment. Depending on the origin of goods, training can be offered on site of the manufacturer or in-country.

EXPERIENCE

Since 1997 we managed hundreds of projects successfully from organizing a VIP visit to Cairo for 2 days to high value projects like in Libya where we provided integrated services including security, coordination, procurements and even housing. We also managed a great number of crises from relocating to evacuating clients: for example, in South Sudan due to conflicts or in Haiti following the earthquake. We also have wonderful experience in managing and solving hostage situations.
